LIA GOES GLOBAL ONCE AGAIN!

Trisha is in France this month working as a CIDESCO International examiner, assessing candidates to the same high standards we hold here at LIA.

Something not everyone realises is how different independent examining is compared to being assessed by your own training provider. When a provider is marking their own students, there can be pressure to pass. Independent examiners don't have that - our role is simply to uphold the standard.

So when we say our students meet international standards, we genuinely mean it!

That's what gives our graduates real credibility - and why their qualifications are recognised by insurers and employers.

CONGRATS TO OUR LEVEL 3 FACIAL ELECTROTHERAPY GROUP

A huge congratulations to our Level 3 Facial Electrotherapy group!

Watching this group progress has been incredible. From those first nervous treatments to now confidently working on real clients, handling real skin concerns and making decisions in the moment - the transformation has been amazing to see.

They're no longer just following routines. They're assessing, adapting, and truly understanding what they're doing and why. That level of confidence doesn't happen overnight. It comes from consistent, hands on practice and the right support throughout.

We're so proud of everything they've achieved - and even more excited to see many of them now progressing on to Level 4!

JUNE VTCT SKILLS EVENT IS

SOLD OUT

This June, LIA will be hosting the VTCT Skills Higher Level Beauty Event - an exclusive professional development event focused on higher level beauty education.

The event has already **SOLD OUT**, with educators and industry professionals coming together to be part of the conversation around the future of aesthetics training.

Attendees will get early access to updates on new qualifications in development (Levels 4 to 7), take part in focus group workshops and watch live demonstrations of advanced treatments delivered to VTCT Skills standards. This kind of collaboration is what moves the industry forward, ensuring qualifications remain rigorous, relevant and genuinely valued in practice.

LEVEL 4 AESTHETICS GROUP

They're now well into the advanced stage of training, and it's been amazing to see how much they've progressed. The level they're working at - from handling more complex contraindications to making confident clinical decisions - is seriously impressive.

What really shows is the foundation behind it. Every student has put in the time, working on real clients and building their experience properly, and it's paying off!

We're incredibly proud of this group and the standard they're reaching. This is exactly what real progression looks like.

UPCOMING COURSE DATES

We've released our upcoming course dates across all qualification levels. As always, we cap class sizes for proper supervision ratios, so spaces fill quickly.

16th April - VTCT (iTEC) Level 4 Skin Needling

4th May - VTCT Level 2 Facial Skincare

4th May - VTCT (iTEC) Level 3 Certificate in Access to Aesthetic Therapies

4th May - VTCT Level 2 & 3 Combined Facial Skincare

14th May - VTCT Level 5 Certificate in Non-Surgical Aesthetic Procedures for Skin Rejuvenation

18th May - VTCT Level 3 Electrotherapy

BOOK YOUR PLACE

Course places are limited and filling rapidly. Visit our website to view full course details, entry requirements, and available dates, or contact our admissions team to discuss the appropriate qualification level for your career goals.

Thank you for being part of a community that values professional standards, evidence based practice, and the long term elevation of the aesthetics industry.
